

BRADLEY DEMOLITION

Purchasing Policy

Bradley Demolition LTD overall goal of Purchasing is to procure quality products and services in the most cost-effective manner and satisfy the company's requirements on a timely basis, consistent with company objectives while maintaining the highest ethical standards. Purchasing shall aim to acquire these quality products and services for the lowest long-term cost. Factors considered in determination of the "lowest long-term cost" will be identified and documented for significant purchasing decisions.

Bradley Demolition LTD is committed to supporting local businesses and stimulating the local economy. When purchasing for our business we request to see the Environmental Policy of all new suppliers and sources, in the first instance via local / regional routes.

In the absence of products being produced within the local & surrounding area, we will source firstly within Scotland, then within the UK

In the absence of the goods we require being produced within the UK or Europe we devote our requirements to the selection of environmentally / health and safety proven suppliers.

Bradley Demolition LTD is strongly supportive of Environmental Initiatives and this is reflected / endorsed by ensuring our purchases are as environmentally friendly as is reasonably practicable.

Bradley Demolition LTD will pay suppliers only on delivery of goods in acceptable condition and service providers only on satisfactory completion of the work which has been ordered.

Bradley Demolition LTD accepts that essential health and safety information should be supplied with many items purchased or hired; the Michael Degnan will ensure that this information is acknowledged and is clearly communicated to any persons using the hired/purchased items.
