

# BRADLEY DEMOLITION

## Security Policy for Permanent and Peripatetic Sites

---

Bradley Demolition LTD is dedicated to ensuring the security for permanent and peripatetic sites.

A risk management approach shall be adopted on all site security related issues. Risk assessments are expected to identify legal, proportionate and necessary security measures to protect Bradley Demolition LTD sites from unauthorized access to land and buildings and breaches of security.

All physical site security precautions shall be legal, proportionate and necessary. All recommendations for physical site security requirements shall come from internal and external sources as appropriate for the requirements of any part of the site and buildings. Designated members of staff within the company shall be responsible for the provision of site security information for their respective area or building on a Bradley Demolition LTD site.

- A 'layered' approach to physical site security shall be adopted to ensure that identifiable elements of prevention, detection and response are incorporated.
- All risks shall be assessed when planning, designing, and modifying any facility on sites.
- A fenced perimeter shall provide the first line of defence against unauthorized access
- Appropriate physical security measures shall be applied to buildings as the second line of defence against unauthorized personnel trying to gain access to the building and staff. Evidence will be collected by CCTV in accordance with Data Protection requirements.

### Roles and Responsibilities

Bradley Demolition LTD Directors: Have overall responsibility for all security matters across all sites.

Any Subcontract Security Firms are responsible for the management of this policy, and site security related information and documents. It is the responsibility of all staff to abide by this policy for the protection of all personnel and all physical assets on sites.

### Policy review

This policy shall be reviewed annually. This policy, related procedures and guidance documents shall be amended as required to take into account the impact of changes to other related documents, procedures, and the like, that affect site security including lessons learned from the occurrence of incidents.

Signed:

Andrew Hill - Director
